

DesignerWare™ Pressed Trays & Bowls

PRODUCT DESCRIPTION

We offer a full range of paper-based trays and bowls designed for dual ovenable product applications. If you are looking for a sustainable replacement to CPET packaging, our broad range of trays and bowls provides functional and market focused enhancements, including: single and multi-compartment design, microwave active materials, rolled rim availability on certain structures, and interior/exterior print capabilities.

SPECIFICATIONS

Structure	PET Laminated, pressed paper trays suitable for CPET replacement
Forming	Blank and web-fed forming
Dual Ovenable	Yes
Printing	Flexographic inside 1 color and outside 2 color plus coating
